Exceptional Education Services

SPED-certified coordinators and specialists help districts support IEPs and 504 plans

Drive Equitable Learning

Ensure each student with an IEP, 504, or other education plan receives the applicable support to reach their goals

With growing staffing shortages, it is becoming more challenging for districts and teachers to give students the accommodations and modifications that are supported in our learning platforms. Imagine Learning gives you the resources to support students with exceptional learning needs, including English learners, students identified as gifted, and those with IEPs or 504 plans.
